

# AllegroGraph – Trend Setting Product for 2020

Franz Inc., an early innovator in Artificial Intelligence (AI) and leading supplier of Semantic Graph Database technology for Knowledge Graph Solutions, today announced that it has been named a 2020 Trend Setting Product by KMWorld. The annual list is designed to spread the word about new and noteworthy solutions that are helping to improve organizational systems. KMWorld compiles this list of Trend-Setting Product offerings that are pushing the limits of what is possible with knowledge management.

“The COVID-19 pandemic has impacted the way organizations and individuals work, as well as how they support and communicate with customers and partners – making it clear that knowledge management is essential, now more than ever. By transforming data into information and then getting it to the people who need it, the resulting knowledge can be used for decisions that can make a significant impact,” said Tom Hogan, Group Publisher at KMWorld. “To help spread the word about noteworthy products that are helping to improve organizational systems, KMWorld created the Trend-Setting Products list.”

“Franz Inc. is continually innovating and we are honored to receive this acknowledgement for our efforts in setting the pace for Knowledge Graph Solutions,” said Dr. Jans Aasman, CEO, Franz Inc. “In the past year, we have seen demand for Intelligent Data Fabrics take off across industries along with recognition from top technology analyst firms that Knowledge Graphs provide the critical foundation for Enterprise Wide Data Fabrics. Our recent launch of AllegroGraph 7 with FedShard, a breakthrough that allows infinite data integration to unify all data and siloed knowledge into an Entity-Event Knowledge Graph solution will catalyze Data Fabric deployments across the Enterprise.”
