

The U.S. Census Bureau licenses AllegroGraph because of advanced performance capabilities

OAKLAND, Calif. – November 17, 2014 – [Franz, Inc.](#) and [the U.S. Census Bureau](#) announce the licensing of AllegroGraph. Graph databases, like AllegroGraph, are one of the new technologies encouraging a rapid re-thinking of the analytics landscape. By tracking relationships – in a network of people, organizations, events and data – and applying reasoning (inference) to the data and connections, powerful new answers and insights are enabled.

“The U.S. Census Bureau’s Business Dynamics Statistics Program selected AllegroGraph for our BDS-IF data integration project because of its advanced performance capabilities in addition to the product’s FISMA compliance.” stated Dr. Javier Miranda, Principal Economist, U.S. Census Bureau. **“Franz’s support team has been great to work with and repeatedly bent over backward to help move our project forward.”** noted Dr. Miranda.

“Lots of answers can be provided by graph (network) analysis that cannot be answered any other way,” stated Dr. Jans Aasman, CEO of Franz Inc. “Fortune 500 companies recognize it is crucial that executives deploy Semantic Graph Technologies as a new competitive tool.”

About the U.S. Census Bureau

The Census Bureau’s mission is to serve as the leading source of quality data about the nation’s people and economy. We honor privacy, protect confidentiality, share our expertise globally, and conduct our work openly. We are guided on this mission by scientific objectivity, our strong and capable

workforce, our devotion to research-based innovation, and our abiding commitment to our customers.

About Franz Inc.

Franz Inc. is an innovative technology company with expert knowledge in developing and deploying Graph Search solutions.
