

# Wolters Kluwer Licenses AllegroGraph

**OAKLAND, Calif. – March 30, 2013** – Franz, Inc. and Wolters Kluwer announce the licensing of AllegroGraph. Graph databases, like AllegroGraph, are one of the new technologies encouraging a rapid re-thinking of the analytics landscape. By tracking relationships – in a network of people, organizations, events and data – and applying reasoning (inference) to the data and connections, powerful new answers and insights are enabled.

“Lots of answers can be provided by graph (network) analysis that cannot be answered any other way,” stated Dr. Jans Aasman, CEO of Franz Inc. “Fortune 500 companies recognize it is crucial that executives deploy Semantic Graph Technologies as a new competitive tool.”
