

AllegroGraph 7 Named a Trend Setting Product for 2021

AllegroGraph receives numerous industry awards and recognition for 2020

Franz Inc., an early innovator in Artificial Intelligence (AI) and leading supplier of Graph Database technology for Knowledge Graph Solutions, today announced that AllegroGraph has been named a Trend Setting Product in Data and Information Management by Database Trends and Applications (DBTA). In 2020, AllegroGraph has received numerous industry awards and independent analyst firms have positioned AllegroGraph 7 as a Champion and Strong Performer.

“Data management and integration demands continue to increase as organizations are faced with more data flowing in from a greater variety sources than ever before,” said Tom Hogan, Group Publisher at DBTA. “To help make the process of identifying useful products and services easier, each year Database Trends and Applications magazine presents a list of Trend-Setting Products. These products, platforms, and services range from widely accepted offerings that continue to evolve to meet the needs of their loyal constituents to breakthrough technologies that are in the early stages of adoption. However, the common denominator for all is that they represent a commitment to innovation and seek to provide organizations with tools to address changing market requirements.”

“We are honored to be recognized again by DBTA as a trend setter in data management,” said Dr. Jans Aasman, CEO of Franz Inc. “Organizations across a range of industries are realizing the critical role that Knowledge Graphs play in creating rich, yet flexible enterprise data fabrics and AI-driven applications. In just the past couple of years, we have helped

our customers create large-scale, multi-model and innovative knowledge graph solutions for diverse use cases, such as healthcare real-time AI decision support, NLP 360 customer intelligence with real-time agent support, and social network data privacy compliance.”

During 2020, AllegroGraph and Franz were recognized by the following industry analysts and technology media.

- * AllegroGraph named a DBTA 2021 Trend Setting Product.
- * Franz was positioned as a Strong Performer in the first Forrester Wave™: Graph Database Platforms 2020, Q4.
- * Bloor Research positioned AllegroGraph as a Champion in the 2020 Bloor Research Graph Database report, which recognized AllegroGraph as a multi-model RDF database.
- * KMWorld named Franz an AI 50: The Companies Empowering Intelligent Knowledge Management.
- * Database Trends and Applications (DBTA) named Franz a Big Data 50—Company Driving Innovation in 2020.
- * AllegroGraph was a KMWorld 2020 Trend Setting Product, as a noteworthy solution transforming information into insight.
- * Franz CEO Dr. Jans Aasman was featured as an expert in The Knowledge Graph Cookbook, which was released April 22, 2020 and explains why and how to build Knowledge Graphs that help enterprises use data to innovate, create value and increase revenue.
- * Franz was recognized as one of the 100 Companies That Matter Most in Data by Database Trends and Applications (DBTA).
- * KMWorld’s 100 Companies that matter in Knowledge Management named Franz Inc. to this exclusive list.

AllegroGraph 7 is a breakthrough solution that allows infinite data integration through a patented approach unifying all data and siloed knowledge into an Entity-Event Knowledge Graph solution that can support massive big data analytics. AllegroGraph 7 utilizes unique federated sharding capabilities that drive 360-degree insights and enable complex reasoning across a distributed Knowledge Graph.

“AllegroGraph 7’s support of Entity-Event Data Modeling is the most welcome innovation and addition to our arsenal in reimagining healthcare and implementing Precision Medicine,” said Dr. Parsa Mirhaji, Director of Center for Health Data Innovations at the Albert Einstein College of Medicine and Montefiore Health System, NY. “Precision Medicine is about moving away from statistical averages and broad-based patterns. It is about connecting many dots, from different contexts and throughout time, to support precision diagnosis and to recommend the precision care that can take into account all the subtle differences and nuisances of individuals and their personal experiences throughout their life. This technology is about saving lives, by leveraging data, context and analytics and is what Franz’s Entity-Event Data Modeling brings to the table.”

AllegroGraph 7 provides users with an integrated version of Gruff, a unique browser-based graph visualization software tool for exploring and discovering connections within enterprise Knowledge Graphs. Gruff enables users to visually build queries and visualize connections between data without writing code, which speeds discoveries and enhances the ability to uncover hidden connections within data.

“Few tools exist that can quickly turn arbitrary RDF graph pattern matches into clear visualizable results,” said Michael Pool, Global Head of Semantic Modeling and Engineering, Senior Director at BNY Mellon Bank. “Gruff is invaluable in turning our knowledge graph data into useful and actionable analytic insights.”

Louis Rumanes at UnitedHealth Group Research and Development recognizes the value of using Gruff as a browser-based app and commented, “Nice job on Gruff in a browser and I think this will be a gamechanger.”

Gartner predicts “the application of graph processing and graph DBMSs will grow at 100 percent annually through 2022 to continuously accelerate data preparation and enable more complex and adaptive data science.” In addition, Gartner named graph analytics as a “Top 10 Data and Analytics Trend” to solve critical business priorities.” (Source: *Gartner, Top 10 Data and Analytics Trends, November 5, 2019*)
